

FP200

Swing Door Finger Guard

Did you know that 30,000 children trap and seriously injure their fingers in doors every year in the UK

The FP200, in full compliance with EN16005, provides effective protection against fingers being trapped on the hinge side of swing doors

- **Safe**
The FP200's strong fabric material is kept under constant tension and is designed to cover the gap between the door and the frame during opening and closing
- **Stylish**
Available in three different colours; satin silver, black and white
- **Durable**
Cycle tested to 1,000,000 operations
- **Maintenance Free**
Easy to clean aluminium housing with a flame retardant fabric
